

**AXE-TORTION - Where Guitars Sing!**  
**A Chandresh Kudwa Initiative**

**AXE-TORTION** is the coming together of top notch Guitar Players of the country as well as the rest of the world - the first ever in the Indian Music Circuit - where guitar players perform in your face Guitar instrumentals that is sure to blow you away.

The AXE-TORTION night will see each Guitarist perform original compositions backed by a Bassist and Drummer, culminating in the Mother off all jams where the musicians jam on instrumental versions of popular tracks! A great way for instrumentalists to connect with the audience without having to sing!

Each Guitarist has a unique sound, style and composition which works out just perfect creating an exceptional sonic experience.

Such collaboration between highly talented Guitar players sharing the same stage and jamming to the same track is a rare treat not only for the Guitarists themselves but also for the audience watching!
